## Synonymical and distributional List of the species of Kahramanmaraş Province (South Turkey) (Lepidoptera)<sup>1</sup>

Ahmet Ömer Koçak Muhabbet Kemal

**Abstract:** Koçak,A.Ö. & M.Kemal, Synonymical and distributional List of the species of Kahramanmaraş Province (South Turkey) (Lepidoptera). *Priamus* 11 (7): 133-171.

This paper deals with the Lepidoptera species hitherto recorded in the Kahramanmaraş Province in the South Turkey. Totally 1394 species are listed alphabetically under the relevant families. For each species, the scientific name, author, date of publication, synonyms, and distributional information in Turkey as provincial codes are given.

**Key Words:** *Lepidoptera*, fauna, checklist, Turkey, Kahramanmaraş Province.

This article is based upon the information of the Databank and the Collection of the Cesa. The aim is to inform the readers about the present situation of the Lepidoptera fauna of the Province Kahramanmaraş. This province is currently under investigation within the Project Lepidoptera of Turkey (LTR) carried out by the authors (Cesa) for the period 2007-2010. The publications on the Lepidoptera of Turkey used are listed in Memoirs vol.2 (1991) and 3-4 [under preparation]. In the list mentioned below, all the species known from the related province are given as current scientific name combination, author(s), date of publication. Totally 1394 species are arranged alphabetically under the related families. Synonymous names are given with the author(s) and date of publication in the chronological order. Distributional information of each species indicates that the Turkish provinces in codes<sup>2</sup>.

In the next issues of this serials you will find similar faunistic lists of the various provinces of Turkey, under investigation within the frame of the research Project of the Cesa.<sup>3</sup>

**Priamus<sup>4</sup>****ISSN 1015-8243**

Priamus is the first international serial publication of the Centre for Entomological Studies Ankara, and appears in volumes at irregular intervals. Each volume is composed of four or six parts.

The serial serves as a refereed publication outlet and accepts original manuscripts of the researchers of the Cesa. Articles accepted deal with the Insect taxonomy, nomenclature, morphology, bibliography, checklist, fauna, biodiversity, distribution, biogeography, ecology, insect-plant interactions, bionomy, and behaviour. The Cesa is a non-profit organization, no royalties will be paid to the authors of contributions. Papers accepted become the copyright of the journal. The publication languages are Turkish, English, German, Uighur language, and Chinese.

**Centre for Entomological Studies Ankara**

( A scientific Consortium)  
(co-operation of research workers for pure-scientific, not commercial purpose)
